Ten Cents a Week

MORE THAN NECESSARY THREE-FIFTHS VOTE FOR IT

HOUSE FAVORS SHORT BALLOT

Warnes Resolutions Are Adopted
After Sharp Debate.

REDUCES LENGTH OF TICKETS

Governor and Lieutenant Governor
Only Elective Offices On State Ballot
If Proposed Constitutional
Amendments Carry—New Prison In
the Country Assured—Blue Sky Bill
Awaits Governor's O. K.

Columbus, O., April 17.—The Ohio house passed the Warnes resolutions submitting to voters a constitutional amendment providing the short ballot (state, county and legislative). More than the necessary three-fifths vote was drummed up for each of the three Warnes ballot resolutions and with them went through a reconsideration and adoption of the Nye resolution for constitutional amendment that women may hold official positions in institutions having the care of women or children. Beaten last Tuesday, it was adopted 89 to 9. The test vote, 78 to 40, on the short ballot issue, was had on the resolution which, as offered, proposed county and township homerule, with removal of the requirement that all county officers be elected. It was materially changed by amendment of Mr. Daniels. As adopted it provides that the legislature, not the people of a county, shall have full latitude in framing county and township government. It means that county and township government would be uniform instead of as many different forms as there are counties and townships. Under the legislature can provide a short or long ballot and can make any county and township offices elective or appointive, as it sees fit. The resolution to shorten the state ballot by electing only the governor and lieutenant governor was adopted, 78 to 29.

Senate's Busy Day.
The senate passed 35 bills, 26 of which are now ready for the governor's signature. Among the more important of the 26 are those providing for a new penitentiary in the country, the Clark "blue sky" act, the moving picture censorship bill, the model municipal charter measure, the Duffey mechanics' lien bill, pensions for the blind, the Kilpatrick measure removing the 1910 limitation in the Smith law.

Other house bills which were passed by the senate and await the governor's signature are: The Kilpatrick bill, providing for the initiative and referendum in municipal corporations; by Mr. Doster, providing public schools for the deaf, blind and crippled; by Mr. Hite, providing for the draining of unimproved roads; by Mr. Clark, prohibiting the employment under contract of persons confined in penal institutions; by Mr. Duffey, to create a lien in favor of contractors, subcontractors, laborers and material men; by Mr. Conover, making the spraying of orchards compulsory; by Mr. Carroll, providing for the redemption of free turnpike bonds defaulted by reason of expiration of time; by Mr. Black of Wyandot, providing for the application of earnings of prisoners.

Senate bills approved by that body were: By Mr. Seward, making first mortgage loans security for the deposit of public moneys, intended to alleviate financial distress among building and loan associations in the flooded districts; by Mr. Haas, validating the Ohio flood relief commission which was appointed by Governor Cox, and extending such jurisdiction into local taxing districts; by Mr. Green, increasing the salary of the deputy auditor of state to \$4,000.

The present weight law provides a penalty for persons selling by weight known to be incorrect. Sealers of weights and measures say convictions are almost impossible under the present law. No dealer "knows" that his weight is incorrect. Guilty knowledge will not have to be proven now if the governor approves the Kline bill, which was passed. "Knowingly" is eliminated.

Every franchise in Ohio of a public

MRS. JOSEPHUS DANIELS

Mrs. Daniels, wife of the new secretary of the navy, before her marriage in 1888 was Miss Addie W. Bagley. She has resided most of her life in Raleigh, N. C.

FREE RAW WOOL MEN SUCCEED IN BATTLE OF CAUCUS

Democratic Caucus Indorses It
By Vote of 190 to 4

WILSON MILDLY CRITICISED

Several Congressmen Intimate That
Democrats Who Withhold Support
From Underwood Bill Will Be Over-
looked by the Administration In the
Distribution of Patronage—Essence
of the Debate.

Washington, April 17.—President Wilson was accused indirectly in the Democratic house caucus of resorting to coercion to force his legislative colleagues to support the Underwood tariff bill. It was intimated that the president had threatened to withhold patronage from members who failed to support the administration tariff program and to go into the districts of such members as had the temerity actively to oppose the Underwood bill.

When all was said, the caucus voted on the free raw wool provision advocated by President Wilson and adopted it 190 to 42. The vote was taken

MISS LILLA GILBERT

Society Girl to Wed Man
Different From Her "Ideal."

Miss Gilbert, who is the \$15,000,000 heiress of Mr. and Mrs. H. Bramhall Gilbert of New York, will marry Howard Price Renshaw, himself a millionaire and society man. Miss Gilbert once said her ideal husband must be six feet tall and a brunette, clean shaven, a Republican and Episcopalian, a money maker, have a curl over his left ear and be fond of pigs and poultry. Mr. Renshaw lives up to none of these qualifications except that he is six feet tall.

DISEASE FOLLOWS AFTER THE WATERS

SMALLPOX IN WAKE OF THE BIG FLOODS

Government About to Grapple
With a Grave Situation.

Washington, April 17.—Smallpox is following in the wake of the rainy season in various sections of the country, and more particularly in the flooded communities of the Ohio and Mississippi valleys. Within the last few weeks several hundred cases have been reported to the public health service, and within the last few days it has become sufficiently prevalent in a number of communities to excite alarm. An outbreak of 12 cases is reported at Jeffersonville, Ind.; 12 cases at Paducah, Ky.; 4 at Hickman, Ky., and 6 at Hermantown, near Annapolis, Md.

A physician of the public health service was dispatched yesterday to Martinsburg, W. Va., near which 12 cases were reported, and instructions were issued to representatives of the service in all sections where the disease has appeared to warn the state and local health authorities and to assist them in every manner possible to put it down.

The smallpox situation has suddenly developed into the worst in 10 years generally throughout the country. For several weeks it has been epidemic in sections of California and Oklahoma, in virulent form, and now it is becoming more general in the central states, although it appears there in milder form for the most part. The appearance of the malady in flooded districts is traceable to a considerable degree to the resultant unsanitary conditions.

Friday, O., April 17.—The Rev. George Washington C. Scott, pastor of Calvary Wesleyan Methodist church, resigned to preach Socialism throughout the state.

THE STAGE IS SET FOR "BIGGEST EVER" REVOLT

MRS. DUDLEY MALONE

Mrs. Dudley Field Malone is the eldest daughter of Senator and Mrs. James A. O'Gorman of New York and wife of Dudley Field Malone, who is one of President Wilson's closest friends.

WEATHER MAN GETS BUMPED FROM JOB

MOORE MUST FACE SERIOUS CHARGES

Dismissed For Alleged Activity
In His Own Behalf.

Washington, April 17.—President Wilson summarily dismissed Willis L. Moore, chief of the United States weather bureau, for alleged irregularities in the conduct of his office. At the same time the president suspended Charles L. Burns, foreman of the weather bureau printing office, and took official cognizance of an investigation now under way which may result in the removal of a number of employes on the ground that they have been "unduly active in using the public service for private and personal ends."

The "private and personal ends" referred to, it is officially admitted, were the furtherance of a campaign for the appointment of Moore as secretary of agriculture in the Wilson cabinet. The charges of gross irregularities made against the weather bureau chief relate to the same activity.

Secretary of Agriculture Houston acknowledges that these charges against the weather bureau chief are of such grave nature that the department of justice has been called upon to investigate them. No details in regard to the charges are officially given except that they grow out of Mr. Moore's efforts in his own behalf to land a cabinet job.

Gibbons Prepares to Leave.
Pittsburg, Pa., April 17.—Cardinal Gibbons has canceled all engagements and will leave as soon as possible for a seaport town, from which place he can embark to Rome at a moment's notice.

BITTER RIVALS FOR PRESIDENCY

Breach Widens Daily Between
General Huerta and Diaz.

OPEN CONFLICT NOT UNLIKELY

Julio Madero, Brother of the Late
President of Mexico, Scents Trouble
From Afar—Disposition of Mexican
Federals, Held by American Troops
Along the Border, a Problem Put
Up to Secretary Bryan.

Washington, April 17.—Collapse of the Huerta government in Mexico before the onslaught of revolutionists in the north and an outbreak of hostilities between General Huerta, the provisional president of Mexico, and General Felix Diaz, leader of the late revolution, were predicted here by Julio Madero, brother of the late president, and Francisco Gonzalez Gante, revolutionary agent. Both are in Washington to confer with representatives of the Madero family here and will return to New York in a day or two. Gante declared relations between Generals Huerta and Diaz are already strained owing to their rivalry for the presidency.

"The states of Mexico are honey-combed with revolution," said Gante. "Huerta in order to protect himself is keeping 3,000 infantry and cavalry at the national palace, while Diaz has withdrawn to his country place a few miles outside the city and has taken about all the federal artillery with him."

Secretary of War Garrison has put it squarely up to Secretary of State Bryan to decide what shall be done with the 500 and more Mexican federal soldiers and Yaqui Indians held by the United States troops along the Mexican border. The former federals and Indians came over to the United States at various times recently following defeat in battles between federal and rebel troops. They surrendered to the United States troops and were at once disarmed and held prisoners. Meantime they are eating up Uncle Sam's rations to the tune of about \$250 a day, besides diverting a large number of American soldiers from ordinary duties to guard and care for them.

The army wants to get rid of its uninvited guests as soon as possible, but requires permission of the state department before it can turn them loose.

John Bull Still Rants But Little Progress

TO APPEAR IN COURT

General Drummond and Other Suffragists Receive Summons.

London, April 17.—Mrs. Flora Drummond, the "general," one of the suffraget leaders, received a summons to appear in Bow street police court tomorrow on a charge of inciting to crime. She received a similar notice as that handed to Mr. Lansbury, the former member of parliament, for a speech in which he advocated the organization of a militant league by the men. Annie Kenney was summoned to court a few days ago under the same statute.

The Woman's Social and Political union are worrying over the prohibition of their Sunday meetings. The union officials say they are preparing an official statement regarding their intentions in the matter. In the house of commons Kier Hardie, the labor leader and suffraget sympathizer, protested against this interference of the right of holding public meetings. He said the disturbances were due only to irresponsible young men.

ON PAPAL THRONE

New Picture of the Pope,
Showing Him Giving Blessing.

NEARING THE END

POPE PIUS WEAKER

Strong Constitution Enables Him to
Make Hard Fight For Life.

Rome, April 17.—The pope is reported dozing. His weakness is gradually increasing, but he has no fever. The action of the heart is being sustained by hourly hypodermic injections. It is evident that his strong constitution is enabling him to make a strong fight against death. The pope's brother Angelo, his nephew, Mer. Prolin, and his sister Anna are staying at the vatican.

Eight Ohio Congressmen Firm to Last Wool Tariff

Washington, April 16.—Utterly crushed by their failure to make a stronger showing in the Democratic caucus today the Ohioans leading the fight against free raw wool practically gave up hope tonight of amending the wool item of the Underwood bill in the House.

The vote of 190 to 42 with which the Democratic caucus downed the amendment of Representative Dies, of Texas, to place a 15 per cent ad valorem duty on raw wool, was worse than a defeat for the wool men. It was a rout. It was utterly demoralizing.

The Ohioans who remained steadfast to the program of amending the wool item to put on a duty of 15 per cent were Ashbrook, Bathrick, Claypool, Francis, Post, Sharp, Whitacre and White. At the final test General Sherwood, of Toledo, who has attended the wool caucuses, voted to sustain the Underwood committee. Those who voted against the Dies amendment and in favor of free wool were Sherwood, Allen, Brumbaugh, Bulkley, Cresser, Gard, Goeke, Gordon and Key. Ansberry and Bowdle were absent.

Women's and Misses' New Spring Clothes

FINE FABRICS, SUPERB TAILORING, MATCHLESS MON-
EY'S WOTRH

Fashion has been unusually capricious in the matter of attire this season, her whims running to more diversified styles than ever before. Only a store with an outlet like ours could keep pace with such bewildering variety. This is why we show dozens of different styles in certain fabrics and colorings, where some stores boast no more than a few. For the same reason our values are always so much more pronounced. As an instance of our leadership we ask you to come and see the new Spring line just opened up.

BURGLARS PAY VISIT TO THE BUSH STORE IN JEFFERSONVILLE

Use Duplicate Key and Carry Off
Goods Valued at \$75 to \$100,
Leaving No Clew Behind Them,
Chicken Thief Also Busy in
Same Town, and Affidavit May
Be Filed at Any Time.

Mr. C. D. Bush's general store in Jeffersonville was burglarized some time Wednesday night, and goods valued at \$75 to \$100 stolen from the place, the burglars making their escape without leaving the slightest clew behind them that might assist in leading to their identity.

Entrance to the store was gained by the use of a duplicate or skeleton key, the front door being unlocked. Once inside the store the fellows helped themselves to watches, knives, razors and other articles of value.

A small sum of money was overlooked by the men, and the safe, which also contained some money and was unlocked, was locked by the burglars in their efforts to open it, so that the contents of the safe were not disturbed.

Whether it was local talent that turned the trick, or two fellows who appeared in the town Wednesday morning and went from store to store begging, is not known, although suspicion points very strongly toward the two characters, who visited the Bush store in their rounds.

News of the theft was sent to the police of surrounding towns, and as the men secured a large number of cheap watches, it is believed that they will try to dispose of the watches and knives in some nearby town.

Other thefts have been taking place in Jeffersonville during the past few weeks, but have been confined to chicken thieving, and indications now are that the thief will soon be in the toils of the law.

That part of Jeffersonville known as "goose-neck" has been the greatest sufferer from the chicken thieves, and a few nights ago the hen house of Chas. Taylor was visited, and several peculiarly marked chickens were stolen. These were sold to Horney & Son's grocery, and later identified by Taylor. Inquiry has been made and it is said an affidavit will be filed within the next day or two, in an effort to apprehend the thief and bring him to justice.

Considerable interest is attached to the result of the burglary and chicken stealing.

Sunday School Convention Opens

The annual Sunday School convention opened Thursday morning at the First Baptist church, with an unusually large attendance, and with deep interest taken in every number that helped compose the program.

Three highly interesting addresses were made, one by State Secretary C. W. Shinn, of Columbus; another by Miss L. Etta Rannels, and the third by Miss Tullis, of Bloomingburg.

Miss Tullis discussed primary work in the Sunday school, offering many valuable points for primary teachers.

"Teacher Training" formed the topic of Miss Rannels' talk, and it was evident she was entirely familiar with the subject, and like Miss Tullis, advanced many ideas which were valuable to teachers, and also instructive to all delegates in general. State Secretary Shinn's address on "Imperative Demands of the Modern Sunday School" was one of absorbing interest to all delegates and others in attendance. Mr. Shinn proved himself a man of advanced ideas, and a great and enthusiastic Sunday school worker.

The afternoon attendance is much larger than the morning attendance, and the program is being carried out as announced.

Tonight an even larger crowd is expected, and taken altogether the convention will be one of the largest held in recent years.

Sidewalk Skating Nuisance Growing

The practice of using the sidewalks for roller skating and other like means of amusement, is on the increase regardless of the ordinance prohibiting such dangerous uses of the sidewalks of the city.

With the increase of sidewalk skating, the complaint against the practice is increasing, owing to the liability of the skaters themselves being seriously or fatally injured by falling, or causing the serious injury or death of pedestrians, particularly children and aged persons.

HARD TIME SOCIAL.

A Hard Time Social will be given at the home of Mrs. John Wilson on Hinde street Friday night, April 18. Each member requested to bring a guest. Admission 10c.

Smoke a Diamond Joe, 5c.

Pope Gradually Growing Weaker

Special to Herald.

Rome, Italy, April 17.—The Italian government this morning asked the physicians of the real condition of the Pontiff, and received the reply that it was impossible to say that his constitution would overcome the present crisis, and even if he does overcome it, the remainder of his days will be spent in a precarious condition, with death to be expected at any moment.

The Pope is reported weaker.

MOVE JOAQUIN MILLER CABIN.

Relic Will Be Taken from Washington to Wilds Poet Loves.

Oakland, Cal.—Joaquin Miller will see without taking the journey across the continent the cabin in which he spent several years in Washington, D. C., before he decided to go back to his beloved Sierras and dream again the dreams that had brought forth his poems. Through the efforts of the California Society at the National capital this cabin is to be brought to this city and reerected in Elk Creek Park, where it will be carefully preserved.

Congressman Knowland has been to see the poet at his retreat near this city. He was asked by the California Society in Washington to make certain of the authenticity of the cabin before it should be sent out. The structure, which stands on property near the Washington monument, was built by the poet himself in the early eighties after his return from London. Curiously enough the logs used by him were taken from the very park in which the cabin is to have its final site and were shipped across the continent. Value is added to the relic by the fact that the stone used in its construction was part of that left over after the building of the great National monument.

In the cabin the poet received many distinguished visitors. Among his friends were President Arthur and President and Mrs. Cleveland and Justice Field, who were delighted to spend spare time with him. There he also wrote much of his later work.

Lured from Alter by Hat.

Winchester, Va.—Sharing the attentions of many ardent admirers who professed to be deeply in love with her, Miss Mary Goode, daughter of John Goode, of Capon Springs, W. Va., braved a severe storm to elope with Turner Lockhart, of the same vicinity, but just as they were about to board a train here for Hagerstown, Md., they were arrested by a policeman, who had been wired by the girl's father to stop them. Lockhart and the girl had driven 25 miles over rough and rugged mountain roads, through a drenching rain, in murky darkness. Several times they lost their way, but brilliant flashes of lightning enabled them to get on the right road. The girl was persuaded to return home when her father promised to buy her a new hat.

Seven Burn In Big Hotel Fire

Special to Herald.

Malone, N. Y., April 17.—Seven were burned to death and 15 seriously injured when fire destroyed the Dewilwon hotel at an early hour this morning.

NINE CHEESES.

Ridiculous Misadventure of a Close-fisted Clergyman.

Anecdotes in which the mean and grasping man is outwitted or held up to ridicule are popular everywhere and always. Few ancient towns are without their historic or traditional instances of stinginess punished or sharp practice defeated. In one village of New England there is still current such a tale concerning an unpopular parson of more than a century ago.

Although a learned man of impressive manners, this clergyman was noted for undue reluctance to expend and readiness to acquire. He had a habit of pleading poverty and hinting for gifts.

The parish, although with some murmuring, had responded with fuel for his kitchen, hay for his horse, Thanksgiving turkeys for his table, and a "subscription cloak" of black satin for his wife when her wedding mantee became shabby. The murmurs increased when it was found that the parson turned an honest but overshrewd penny by selling, instead of using, many of these donations. But they were not loud enough to disturb his stately calm, and he went his way without condescending to notice them. At last, however, fortune played him trick for trick.

One pleasant winter day he made a round of calls, and at each house, when about to leave, he casually asked his hostess if she could let him have a little piece of cheese, as his wife happened to have none in the house, and unexpected company had arrived. In each case, the good housewife, instead of a little piece, generously presented him with a whole cheese, which he graciously accepted. As he turned from the door-stone, at the close of the last visit, while the mother of the family and her brood of nine children stood politely gathered to watch him drive away, he carelessly pulled the wrong rein—the sleigh tipped sharply on a drift, and out from under the ministerial laprobe rolled nine large cheeses, which spun friskily away in all directions over the icy crust.

His hostess understood the situation at a glance.

"Don't disturb yourself, pray, sir," she urged, politely, as he made a motion to descend. "It is quite unnecessary. The children will gather them up and none be overburdened, nor will there be any quarreling for the privilege. See, it is just a cheese to a child."

So it was, and the embarrassed parson, unable to escape, was obliged to receive back his cheeses, with due thanks to each giggling volunteer, as they came up in gleeful procession, one by one.

Too well he knew that by the next day the whole parish would be laughing at his misadventure, although he could scarcely have guessed that the joke would be recalled a hundred years after.

Meets Death In The Scioto River

John Orahoad, son of Mrs. Maria Orahoad, and a former resident of New Holland, was drowned in the Scioto river at Columbus first of the week, and his body had not been recovered up to Thursday morning, so far as known.

His mother, who still lives at New Holland, was not aware of the death of her son until she read it in one of the Columbus newspapers. Orahoad was watching the work of divers about the Hocking Valley bridge when he lost his balance and fell into the waters, being quickly whirled to his death.

Mrs. W. M. Mitchener, son Willard, and daughter Judith Ann, who have been visiting Mrs. Mitchener's parents, Mr. and Mrs. Jos. N. Willson returned to their home in Dayton Thursday.

Mr. and Mrs. Grant Hayes and Mr. and Mrs. Robert Howat made a motoring trip to Circleville today.

Mr. and Mrs. C. H. Murray with Mrs. D. H. Van Winkle and Mrs. V. J. Dahl as their guests, made a motoring trip to Dayton Thursday.

Mrs. Walter W. Hamilton, left Thursday morning for a week's visit with Mrs. Edward Campbell at Bellefontaine.

Mrs. C. A. Reid and Miss Metha Patton visited Mrs. Robert Schenck in Dayton Wednesday.

Mrs. M. S. Daugherty is spending the week end at Maple Grove Springs.

Mrs. P. A. Altland is critically ill at her home on North street. Mr. Altland was summoned home from St. Louis, Mo., and reached here Wednesday.

Greatly Pleased

ARE DEPOSITORS OF THE BUCKEYE BUILDING AND LOAN COMPANY, RANKIN BUILDING, 22 WEST GAY ST., COLUMBUS, OHIO.

1. They bring their friends here to deposit their money.
2. They recommend the company to their acquaintances, knowing that it is safe.
3. And that all money left here is loaned only on homes and farms, the safest of all mortgage loans.
4. They are pleased with the five per cent interest received.

Mrs. James Priddy arrived from Greenfield Wednesday afternoon for a few days' visit with her daughter, Mrs. Ralph Penn.

Frank Reid had to curtail his spring vacation owing to the fact that he is on the Miami University Baseball team and was obliged to return to Oxford Thursday for practice for the opening game next week.

Misses Charlotte and Nina Dahl were visitors in Columbus Wednesday.

Mr. and Mrs. Charles Sexton spent Wednesday in Columbus.

Mr. R. C. Peddicord was a business visitor in Columbus Wednesday.

Mr. Wash Taylor, of Cincinnati, is visiting Mr. and Mrs. Frank Jamison on the Leesburg pike.

Dr. J. F. Dennis was a business visitor in Columbus Wednesday.

County Commissioner Edwin Weaver spent Wednesday in Columbus.

Mr. H. C. Teachnor returned Wednesday afternoon from a business trip to Buffalo, N. Y., and Chicago.

Mr. George Inskeep made a business trip to Columbus Wednesday.

Dr. J. M. Boyd went to Columbus Wednesday to attend the funeral of his uncle, Mr. Milton Boyd.

Mr. and Mrs. Charles McClimans and baby, and Miss May McClimans, of Danville, were motoring visitors here Wednesday for the first time since their return from a winter's stay in Tennessee.

Mr. and Mrs. J. P. Snyder, who have been visiting at the home of Mr. Ralph Braden, of Good Hope, are now the guests of Dr. and Mrs. J. M. Boyd. Miss Lois Bean arrived from Hillsboro Thursday to visit her sister, Mrs. H. T. Wilkin.

John F. Burk, William Backenstoe, Tom Murray, Charles Eatters, Richard Barker and Edward Burnett left this week for Peru, Ind., to join the Hagenback and Wallace Shows. Richard Ramsey, Ora Saunders and Fred Hickman are in St. Louis, Mo., for a 12 days' stay with the 101 Ranch Wild West Show.

Mrs. Tom S. Maddox went to Circleville this morning for a few days' visit with her brother, M. H. Lamb and family.

CLUB NEWS

The April meeting of the Ladies' Missionary Society of the Presbyterian church met Wednesday afternoon at the home of Mrs. Miller Mintern, with Mesdames A. C. Henkle, White, Davis, Bryant, Mayer, Martin Hamm, Fred Hamm, Blackmore, Bargar, Gage and Stitt assisting hostesses.

The month's motto, "There is No Defense or Security for Any of Us Except in the Highest Intelligence and Development of All" was especially in accord with the topics, "Freedmen" and "India."

After the opening exercises conducted by the President, Mrs. S. D. Morgan, Mrs. M. E. Hitchcock, treasurer, gave an encouraging report and the secretary, Mrs. W. B. Woodward, read minutes of last meeting.

Mrs. Josephine Kerr presented an able paper on "Development of the Negro and His Educational Interests in the United States."

Mrs. Chas. Campbell developed the topic, "The Mission Station as a Social Settlement in India", with much interest and force.

Mrs. H. L. Stitt played a brilliant piano solo, and by special invitation, Mrs. Fred McLean, of Chicago, sang three beautiful vocal solos.

The social hour with light refreshments, was thoroughly enjoyed and there was a large attendance.

The Presbyterian meeting will be held Tuesday and Wednesday of next week in the Pisgah church and it is hoped that a number beside regular delegates will attend.

The Loyal Daughters will hold an Apron Sale at Ducey's plumbing office Saturday, April 19th. All kinds and all prices.

ATTENTION.

Special meeting of John M. Bell Post, Thursday evening, April 17th, 1913, at 7 o'clock p. m. All members are earnestly requested to be present at this meeting as there is business of importance to come before the post. By order of

Closing Days of General Assembly

Perhaps never in the history of the State of Ohio has the General Assembly had so much to do and so little time in which to do it as right now.

In the first place the present General Assembly has had proposed for consideration, perhaps, a larger number of measures than any other legislative gathering in the state's history.

Not only have unusual proposals been dumped into the legislative hopper during the present session, but an unusual and insistent public demand of at least formidable appearing strength has had its effect on the deliberations of the legislative body.

Not only have these conditions made the sledding of the law-makers particularly rough, but the terrible flood disasters sent upon the state by the elements have demanded that a situation which finds no precedent in the history of the state be dealt with immediately.

The members of the present General Assembly have been truly beset from within and from without by clashing factions of men and interests which know no party lines, by extremists—the impatient type of reformers—and by the elements themselves.

In that unusual condition of affairs relating to law-making now is injected the order to hasten the final adjournment. Questions of the most vital importance to the people of the state—questions which, under normal conditions would require and should receive the most deliberate consideration and the fullest and freest discussion must be snapped through and disposed of—scores of them—in less time than, under normal conditions, would be accorded to one alone.

These abnormal conditions which have confronted and perhaps confused a large number of legislators, the people of the state should take into consideration and not scan too critically the work of the solons now about to put a period on an extraordinary session.

The work may not be just as smooth as the people would like to have it sent to them—some proposals may be left in the shape of bills instead of polished and turned into laws—some proposals may be promulgated as laws of the state which should have been left, at adjourning time, as legislative proposals only.

But under the powerful lens of public opinion when all the defects of the finished work stand out boldly—a generous public should, and probably will, consider all the unusual circumstances under which the General Assembly operated, and allow the unusual conditions a share of the blame for possible unusual and unsatisfactory workmanship of the mechanics who are working in the law factory of Columbus "overtime" to get out "rush order" laws.

Train Our Children Right If We Want Them to Lead

By L. R. ALDERMAN,
Superintendent of Public Instruction of Oregon

BUSINESS OF THE NATION TODAY IS FIRST WITH THE CHILDREN.

I am convinced that the awakening of the west is not a purely western movement. Everywhere the present system of public schools is UNDERGOING ANALYSIS. It is being realized and admitted that our schools today, generally speaking, will NOT STAND THE EFFICIENCY TEST. It is bunglesome, rather trying to fit the child to the education than fitting the education to the child.

The result will be that in fifty years there will be such A REVOLUTION AND SHATTERING OF TRADITIONS AS WE HAVE NOT SEEN IN ANY ONE LINE. If we don't we may expect to see foreign trained students come into America in greater numbers, take our places at the desk, the work bench or the markets and usurp rightfully the places and stations which belong to the American men and women.

FOREIGN SKILL WILL OVERTOP AMERICAN TRAINING, UNLESS WE CHANGE THAT TRAINING. FOR THAT REASON THE INDUSTRIAL MOVEMENT IN EDUCATION HAS BEGUN. THE TRADE SCHOOLS, AGRICULTURAL TEACHING, PERSONAL HYGIENE AND VOCATIONAL TRAINING IN ALL LINES ARE BUT THE FIRST OUTCROPPING OF A HARVEST OF NEW IDEAS THAT WILL NET DOLLARS AND CENTS TO THE NATION IN YEARS TO COME AND MEN AND WOMEN OF MERIT TO OUR CITIZENSHIP.

What is the good of inflicting a needless amount of algebra on a girl who cares nothing for engineering detail? The training in this line leads to the engineer's room, and how many girls look in this direction? We must ELIMINATE THE DEAD TIMBER IN OUR EDUCATIONAL SYSTEM AND PROVIDE TRAINING THAT WILL FIT THE STUDENT TO TAKE UP LIFE IN HIS OWN PARTICULAR FIELD OF AMBITION. It is this movement that is stirring the educators of the entire country.

Poetry For Today

FIRST PLEASANT DAYS.

Sweet is thy coming, Spring!—and as I pass
Thy hedge-rows, where from the half-naked spray
Peeps the sweet bud, and 'midst the dewy grass
The tufted primrose opens to the day;
My spirits light and pure confess thy power
Of balmy influence; there is not a tree
That whispers to the warm noon-breeze, nor flower
Whose bell the dew-drop holds, but yields to me
Predestinings of joy: O, heavenly sweet
Illusion!—that the sadly pensive breast
Can for a moment from itself retreat
To outward pleasantness, and be at rest;
While sun, and fields, and air, the sense have wrought
Of pleasure and content, in spite of thought.

—London Mirror.

Weather Report

Washington, April 17.—Ohio—Fair Thursday and Friday; moderate north winds, becoming variable.

Lower Michigan—Fair Thursday and Friday; moderate variable winds.

Indiana—Fair Thursday and Friday; light to moderate variable winds.

Illinois—Fair Thursday and probably Friday; moderate variable winds mostly north.

Kentucky, West Virginia and Tennessee—Fair Thursday and Friday; not much change in temperature.

WEATHER OBSERVATIONS.

Observations of the United States weather bureau, taken at 7 p. m. Wednesday:

	Temp.	Weather.
Boston	46	Cloudy
New York	52	Cloudy
Buffalo	54	Clear
Washington	54	Cloudy
Columbus	58	Clear
Chicago	50	Clear
St. Louis	59	Clear
St. Paul	72	Clear
Los Angeles	58	Clear
New Orleans	74	Clear
Denver	74	Clear
Tampa	66	Clear
Seattle	60	Clear
Winnipeg	66	Clear

Weather Forecast.

Washington, April 17.—Indications for tomorrow:
Ohio—Fair; moderate north winds, becoming variable.

Madison Mills

Those reported sick last week are much improved at this time.

E. W. Douglas is busy overhauling automobiles here in the village at this time.

Elza Stewart and family will return to the village the latter part of the month. They have been in Toronto, Ohio, for the past six months.

Sub-district school elections were very quiet in this community.

Farmers in this section are improving all the spare moments in getting ready for the planting season.

J. W. Maddux is making some improvements on his place at this time.

The primary grades of our school have been "out" because of the diphtheria. They will probably resume work soon, as there are no new cases and those affected are much better.

Mr. Elza Arnold spent Sunday with Mr. and Mrs. John Campbell.

Friends and relatives of Aunt Mary Vance met at her home Friday, in honor of her birthday anniversary.

Miss Dehl Armstrong spent a few days with Mr. and Mrs. Harry Armstrong last week and this week. Miss Armstrong is working in a Columbus hospital as a nurse.

With 2400 active employees who have been in the service 40 years or longer, and 1572 men who served 40 years or more and are now receiving pensions, the Pennsylvania railroad has a payroll which is probably unique.

M. W. OF A.

The Modern Woodmen of America will give a supper at Red Men's hall Thursday evening, April 17th for all Woodmen and their families. The ladies are requested to bring a basket. Gents 25c, ladies free. Good music. All neighbors requested to come and bring their families:

ROY ENGLISH,
FRED KIBLER,
AL BURCH,
Committee.

TARIFF BILL
RATES ARE LOW

Would Reduce Customs Revenue \$120,000,000 a Year.

MADE UP BY INCOME TAX.

Steel Rails, Sugar, Wood Pulp and Meats on the Free List, Woolen Goods and Machinery Reduced—Tax Would Affect Incomes of \$4,000 a Year and Over.

Washington.—The special session of congress, which was called to revise the tariff, was addressed personally by President Wilson, who read his message to the houses. It was the first time that a thing of this kind has been done since John Adams was president.

The new rates would reduce the government's customs revenue \$120,000,000 a year, a sum which, it is proposed, shall be made up through the new tax on incomes.

The purpose of the measure is to put the burden of governmental expense upon the wealthy and by reducing the price of necessities lower the cost of living for the poor.

The metals schedule: Steel rails free; steel and iron wire, now 35 per cent, to 20 per cent; forgings, now 30 per cent, to 15 per cent.

Machinery to be generally reduced. Automobiles unchanged. Steam engines and machine tools reduced from 30 per cent to 15 per cent.

Sugar to be on the free list in 1916. An immediate reduction of 25 per cent is proposed.

Woolen cloths, knit fabrics and manufactured goods to be reduced from 55 per cent to 35 per cent.

Cotton cloth is reduced from 30 and 40 per cent to 7½ and 27½ per cent.

Meats are to be on the free list. Rates on live stock to be reduced generally—cattle, from 27½ per cent to 10

© 1913, by American Press Association.

PRESIDENT WILSON.

per cent; sheep, from \$1.50 each to 10 per cent; poultry, from 3 cents to a cent a pound; horses, from 25 to 10 per cent; swine from \$1.50 a head to be free.

Wood pulp will come in free. Print papers at 2½ cents a pound or less are also on the free list.

Silk goods are reduced from 70 cents and \$4 a pound to 45 per cent; ribbons from 50 to 40 per cent, and partially manufactured silk goods from 35 cents a pound to 15 per cent.

Linen fabrics are cut from 60 per cent to 45 per cent. Handkerchiefs reduced from 50 per cent to 35 per cent.

The income tax bill provides a graduated tax upon every resident of the United States whose income is over \$4,000 a year.

In all cases the first \$4,000 of income is exempted from taxation.

From \$4,000 to \$20,000 the rate is 1 per cent. Thus on an income of \$20,000 the tax would be \$760.

From \$20,000 to \$50,000 a surtax of 1 per cent is added, and from \$50,000 to \$100,000 a surtax of 2 per cent.

On incomes in excess of \$100,000 a surtax of 3 per cent is added. Thus on an income of \$1,000,000 a year the tax would be \$38,260.

The bill would repeal the present corporation tax law imposing a 1 per cent tax on the earnings of corporations and stock companies.

The salaries of the president of the United States, federal judges and all state officers and employees are exempted from the income tax.

These are the principal administrative changes proposed:

Trade with the Philippine Islands is placed upon an absolutely free basis. Commercial relations with Cuba are not changed.

The president is urged to make reciprocity treaties. These must be ratified by a majority of both houses of congress. The senate thereby loses its exclusive power to ratify trade treaties.

The income tax is collectible at the source of the income. Thus stock owners will receive dividends less the government tax.

HER FIRST SPRING HAT.

—Briggs in New York Evening Sun.

Bloomingburg

Prof. Floyd Holdren after spending his vacation has returned to East Liverpool to take up his school work.

Mrs. R. B. Short, who spent the winter at Atlanta, Ga., returned to her home last week.

Frank Hains, after spending the winter at Palm Beach, Fla., returned Thursday.

G. W. Schuster, of Adams county, was here last week looking after his farming interests.

A number of our young people, attended the Box Social at Yatesville Friday evening.

Mrs. J. R. Lohr is spending the week in Columbus with friends.

D. E. Roler and Ennis Stevens were in Columbus Saturday on business.

Virgil, youngest child of Mr. and Mrs. Frank Butcher, died Monday morning.

Miss Grace Storts, of Columbus is spending the week with her parents, Mr. and Mrs. Newt Storts.

Mr. and Mrs. Floyd Redding, of Jamestown were Sunday guests of Mrs. Redding's parents, Mr. and Mrs. R. L. LaFollett.

Harry McCoy and Leland Hains are home from Oxford college, to spend vacation with their parents.

LADIES G. A. R.

Regular meeting Ladies' G. A. R., Friday afternoon 2 o'clock.

Disturbers Spread The Big Fight In Europe

NOW A NATIONAL STRIKE

Belgian Government Inclined to Take Up Franchise Reform.

Brussels, April 17.—There is a gradual extension of the strike movement at many places. It looks now as if it would be accurate to describe the position as a national strike. The strike committee claimed that 372,000 men are on strike. The movement continues to bear the same peaceful aspect as heretofore.

There is said to be a possibility of an amicable settlement being reached. M. Lorend, a deputy, asked leave to submit a proposition dealing with franchise reform to a committee of the chamber. The premier stated that when the industrial war was ended the government would consider the electoral problem with the Socialists.

YOUTHFUL HIKERS ON LONG JOURNEY PASS THROUGH CITY

High School Boys From Newark, New Jersey on Way to Pacific Coast, Must Complete Hike in 150 Days to Win Scholarship in Training School—Are Behind Schedule Here.

Eric Nelson, aged 18, and Patrick Hobbs, aged 20, high school boys of Newark, N. J., arrived in Washington at 12:15 p. m. Wednesday afternoon on a coast-to-coast tramp, having wagered to cross this continent on foot in 150 days. The boys were required to start penniless and earn their living by selling post cards on which appear the likeness of the youthful hikers. The reward for the long tramp should they succeed in crossing the continent within the time specified, will be free tuition for a course of five terms in the Springfield (Mass.) Training school. The boys are members of the Frank H. Sommer Athletic club, Jenkinson Dramatic club, McKierman Basketball team, Frank H. Sommer Athletic Club Football team and the East Side High School Football and Basketball teams. The boys carry with them a letter of introduction from Governor Fielder, of New Jersey, and also letters from Governor John K. Tener, of Pennsylvania and Governor Cox of Ohio.

They are the first persons from New Jersey to attempt a "cross-the-continent" hike and constitute the youngest and shortest persons who ever tackled such a long journey. Dobbs is only a trifle over 5 feet while young Nelson is nearly six feet in height. They are about 3 days behind their schedule on account of young Nelson who caught a bad cold and turned into grip. Nelson was in bed 5 days in Columbus.

USES OF ALCOHOL.

In Spite of the Bad Things Said It Never Forsakes a Friend.

Alcohol is in Turkish baths, museums and plain rooms. It also furnishes a scientific base for temperance and certain lectures. It enters, in some form or other, into most of our industries and through it we manufacture breadstuffs, dyes and snakes. Although it is not responsible for perpetual motion, it is the only fluid agent known to make the earth go round. It has also made two moons appear in the heavens, where only one moon was seen before.

Alcohol is manufactured in every state in the union, including the states of matrimony and unrest. It is responsible for the crooked course of the grapevine. It sails the unbridled ocean and sits on every corner. It is the most consummate actor known, and in the extent of its marvelous make-ups has never been equalled by an old-sleuth. It takes on every form and line, and as an interior decorator is unequalled. It is fastidious, however, about colors, eradicating the blues and replacing them with reds and purples.

Alcohol is successful in every one of its undertakings. But in spite of all the bad things that have been said about it, it has one great quality. It never forsakes an old friend.

He Got Up.

A traveler, who put up for the night at the leading hotel in a small town, had, before retiring, left explicit instructions to be called for an early train. He was very much in earnest about the matter, and threatened the clerk with all manner of punishment if that duty was neglected.

Early in the morning the guest was disturbed by a lively tattoo upon the door.

"Well?" he demanded sleepily.

"I've got an important message for you," replied the boy.

The guest was up in an instant, opened the door, and received from the boy a large envelope. He tore open the envelope hastily, and found inside a slip of paper, on which was written in large letters: "Why don't you get up?"

He got up.

Use of Celery Leaves.

Do not throw away celery leaves. Cut both stalks and leaves from a bunch of celery, boil until quite soft, then take two or three tablespoons of flour, stir it into one quart of boiled milk; chop the celery leaves and stalks quite small; stir into the milk, add a little butter, season to taste. This is a very nourishing food for invalids, also it is a very good remedy for dyspepsia. The white lower part of the celery can be used for salad after the tops are cut off, so this is really a most economical dish. It is so light and nourishing that it makes an excellent meal for children.

INTERESTING BITS OF NEWS

(By John E. M. Kerr.)

With the appointment of an advisory committee of representative citizens of New York City, the first step in the movement to make the buildings of the metropolis conform as regards to height, location, proportion and uses has been taken. Today the commission which consists of real estate brokers, architects, social and tenement workers, sanitary factory investigators, attorneys and city officials, will meet for organization.

State Librarian Newman was in Piqua yesterday investigating conditions at the Schmidlapp Public Library which suffered a very serious damage by the high waters. Mr. Newman will lend whatever aid the state can in restoration and through correspondence Mr. Newman has learned that some publishers are willing to give new books free in exchange for their issues, damaged by the flood. All the books in the library were destroyed but a few on the top shelves which the water just failed to reach.

The Lake Shore Railroad company will spend \$3,000,000 instead of \$2,000,000 as first planned on its terminal improvements at Air Line Junction in Toledo. The new terminal is designed for through traffic, thus leaving the present terminal for the handling of local traffic.

Edward Smith, the millionaire Socialist of Warren, Ohio, went to the work house for 51 days rather than pay \$25 fine which he claims was illegal. After the flood had subsided in Warren Smith went out with a camera for photographs. A militia ordered him from a certain street. Smith submitted to arrest for he refused to leave. "The magistrate is angry at me because I ran against him for Mayor," said Smith. "The soldier who arrested me had no authority to keep me off a street because the town was not under martial law." Mrs. Smith said her husband was taken before the mayor in star chamber proceedings, and insisting it was illegal, refused to defend himself. He announced that rather than pay the fine he would work it out at 60 cents per day. He was set to work on a type setters case in the work house getting out the weekly paper published there.

Oklahoma and Texas men are preparing to build a power plant across Mountain Fork, the dam to produce 2000 or more horsepower. The proposed dam will be 150 feet high and 350 feet long and will supply electricity and fresh water to towns and cities from Paris, Oklahoma, to Fort Worth and Dallas, Texas.

William Dawson tried to rescue a cat from a dog in Portsmouth the other day and was nearly torn to pieces by the claws of the cat and was half eaten by the dog.

A new dining fad has been introduced in Newport smart set and women of wealth and influence are vying with each other to see which can give the best dinner at a limit of 25 cents for each guest. At the end of the meal the hostess is called upon to present her itemized expense account which includes even the salt, sugar, vinegar, etc. Cook books telling what can be done with left-overs are popular and in but few homes are chops or steaks entertained oftener than once or twice a week. Instead there is a goodly roast for Sunday, then appetizing changes rung in on the left-overs, which include even the bones, the gravy and the remains of the vegetables, macaroni, bread, etc.

About \$1,000,000 is in the hands of a national organization for the promotion of the growth of alfalfa. A county campaign is proposed and meetings will be held at 30 or 40 places in each county upon the farms and competent speakers will instruct farmers how to grow alfalfa successfully. The reason for starting this work is that it has been proved by all successful growers, that a good farmer on good land, can pay a reasonable dividend on valuation of \$500 or \$600 for each acre grown, and at the same time increase the yield of all other crops coming after alfalfa.

A GLIMPSE BACK THROUGH YEARS

(John E. M. Kerr.)

May 20, 1869.

District Court for this county was in session Thursday of last week. Manfred Willard, Thomas D. McElwain and T. N. Craig were admitted to the bar.

The following committee are called to make arrangements for decorating graves of soldiers and sailors. Col. A. C. Johnson presided. Committee on general arrangements: Col. S. N. Yeoman, Col. C. Garis, Capt. S. W. Stuckey; on music, J. D. Stuckey, Capt. Wyatt and W. P. Cleveland; on finance, M. Blanchard, J. W. Pope, Geo. Duffey, H. Wells and J. Webb; on speakers, Geo. C. Jenkins, R. A. Robinson and Luther Miller. A. McCandless, secretary.

The property of the C. & Z. railroad was assessed for taxation by the auditors of the counties along the line at \$800,000, of which about \$73,000 is apportioned to this county.

No cure, no pay.—Dr. T. H. Purdy, the celebrated Indian doctor, will be at the widow Backenstoe's Wednesday and remain two days. Warranted to cure. Give perfect satisfaction.

Jeffersonville

Mr. and Mrs. A. W. Duff, of Washington, spent the week end with the former's parents, Mr. and Mrs. W. W. Duff.

Miss Ruth Spellman spent Sunday and Monday the guest of Miss Lucy Warnock.

Margaret Shough, of Washington spent the week with her aunt, Mrs. Dow Fent.

Miss Jessie Slaughter, of near here, planned a very pleasant surprise last Saturday evening upon Jack Slaughter, who was eighteen years old. About fifty guests from London, Springfield, Dayton and Jeffersonville were present. Dainty refreshments were served by the hostess and a very pleasant evening was spent by all.

Joe Matthews, of North Dakota is visiting at the home of his parents, after an absence of eight years in the West.

Mr. Hisey, of Bellbrook, visited his brother, Mr. A. A. Hisey this week.

The Pythian sisters entertained a number of guests to an open session Thursday evening. An interesting session was reported and refreshments were served.

Paul Langhey spent Sunday and Monday in Springfield.

Fred Williams, of Dayton, is visiting relatives here this week.

Mrs. Tudie Barker spent a few days this week the guest of relatives in Bloomingburg.

Thad Miller and Dave Serbine were in Springfield Monday.

Mack Duff, of South Solon, spent Monday the guest of his sister, Mrs. Lynn Straley.

Willie Turner, of Washington, is spending a few days with his parents, Mr. and Mrs. Hugh Turner and family.

Mrs. Harry Miller and son Charles spent the week end with relatives in Springfield.

Arthur Boyer who has been confined in the hospital at Springfield with Tuberculosis for the last two months, died Tuesday morning. Undertaker Morrow brought the remains here Wednesday for burial.

Deceitful.

"I admire patience and self-control," said Uncle Eben, "but when I see a man dat kin keep on smilin' after he done bruise his thumb with a hammer, I can't help bein' suspicious of his capacity for deceit."

A Foolish Question.

Spectator—Bub, which one of those men working on that excavation is the boss?

Water Boy—Aw, can't you see they're all Irishmen?

A Delight.

She (indignantly)—You had no business to kiss me! He—But it wasn't business. It was pleasure.

Pulls in Man-Eating Shark.

Lewes, Del.—Attacked by a man-eating shark which he hauled from the Delaware Bay while fishing from the Over Fall Lightship, Martin Berg would have been killed but for the heavy clothing he wore, which partly broke the force of the shark's teeth. Berg sustained a deep gash in his leg. The big fellow was over four feet long. After a severe fight in which other members of the crew took part, the shark was killed with an ax.

BLACK RAIN FALLS TURNING CREEKS TO INK NEAR HILLSBORO

Unusual Phenomenon Occurs in Highland and Clinton Counties, Causing Much Speculation Among Even the Oldest Inhabitants—Some of Many Reasons Advanced for Murky Colored Rainfall.

A rare phenomenon in the fall of black rain in Highland and Clinton counties Saturday night and Sunday morning, is reported from both Hillsboro and Wilmington, and also by cities of other counties to the west and southwest, and the unusual occurrence has caused a great deal of speculation as to what caused it.

The rain was black, and all pools and streams soon became black, so that they resembled so much ink, and attracted no little attention. Every puddle of water was of the same color, and in a great many instances persons caught some of the inky water in vessels in order to preserve a sample of the unusual rain. Many persons became frightened, not being able to understand why black water should fall, and evidently believing the world was about to come to an end.

One man reports the inky rainfall in southwestern Fayette county, but says it was not as black as the rain which fell a few miles south of where he resides.

A black sediment in the water was noticeable in Highland county, and where the water had evaporated or run out of the various receptacles a ring of black deposit could be seen.

Speaking of the phenomenon the Hillsboro Dispatch says in part:

"Some of the older residents of the county say that some years ago we had black rain, but it was not as dense as the present one. They further state that the rain at that time made the ground very hard and that the corn crop that summer was a very poor one. Some of the more pessimistic are predicting such a condition this year.

Many have advanced theories as to the probable cause of this strange phenomenon of Nature, but there

seems to be a great disparity of opinion, in the explanation so far given. The one most prevalent is that the soot of the big cities has collected against a cloud and that this cloud has drifted over this section where the black rain fell the water acquiring the blackness. Lamp black is manufactured by the cooling of carbonaceous gases against a cool object, which causes carbon to deposit thereon. Thus, if this theory holds good Nature has been manufacturing carbon in enormous amounts and then deposited it in Highland and adjoining counties. If this is the case the black in the water would not be in solution, as carbon or soot, is one of the most insoluble of substances.

The other most likely theory is that the blackness of the rain is due to a collection of volcanic gases that have been carried to this part of the county by air currents and precipitated with rain when it met with the proper atmospheric conditions. This theory can be proved to be true to a certain extent if upon examination of the water it is found that the part of the fluid having the coloring properties is soluble.

So it will be seen from the two conditions reported, that both of the above theories are in a measure supported.

The Wilmington Journal also has the following to say about the black rain:

"Though no one has offered an explanation, yet several have given a little light on the subject by quoting what they claim is an old saying about the black rain. One man about the court house Monday, told that it was once a familiar saying that when rains had been frequent the 'black rain' came as the clear-up shower. Thus, he said, 'people used to talk about wishing the black rain would come when there had been heavy rains, meaning that it would mean the end of the wet spell.'

But the big majority of people never knew of such a thing and never heard of the saying 'black rain'. But there was unmistakably a black rain Saturday night and Sunday. There are those, like Carey West, of Martinsville, who have the best proof that it came down black and was not rendered so by flowing over the earth

Mr. West has white porcelain vessels which he uses about his home creamery and some of these were standing so that they were filled with water as it fell from the clouds. This water was decidedly black and remained so after standing in the vessels. The evidence of the phenomenon is not lacking, though the explanation has not been suggested."

As a matter of fact the black rain fall, while rare, is by no means unknown, and is probably no more unknown than the phenomenon of red rainfall, which usually strikes terror to the hearts of the more superstitious by turning the streams to a bloody color.

Receives Patent Unique Machine

Rev. William I. Campbell, late pastor of the Presbyterian church has received the patent through Washington, D. C., patent office, for the money changing machine for which he completed the model and drawings some time ago.

It has been an open secret to friends of Rev. Campbell that he is a born inventor and has been working on this ingenious device, which will make a fortune for its inventor as well as prove a boon to the business world, and it will be welcome news that the patent has been received.

Rev. Campbell is now vice-president of a company which manufactures a coin sorting machine, invented by his brother, Mr. Harry Campbell in conjunction with Mr. Jacobson. This company is organized and capitalized at \$100,000.

It was this machine which suggested to Mr. Campbell the idea of a machine which would make change and give any combination of coins, and this idea he has developed in the only machine of its kind now perfected. It can be worked either by electricity or a crank, as is the cash register, and pressing the proper key registers the amount of purchase and change and returns the correct change.

The new invention is considered a mechanical wonder. It was submitted to two leading mechanical engineers in Philadelphia and one in Washington, D. C., and pronounced by all three a perfect mechanical production. It is absolutely impossible for the machine to make a mistake. The present machine deals with silver only and Rev. Campbell is now working on an attachment to handle paper money.

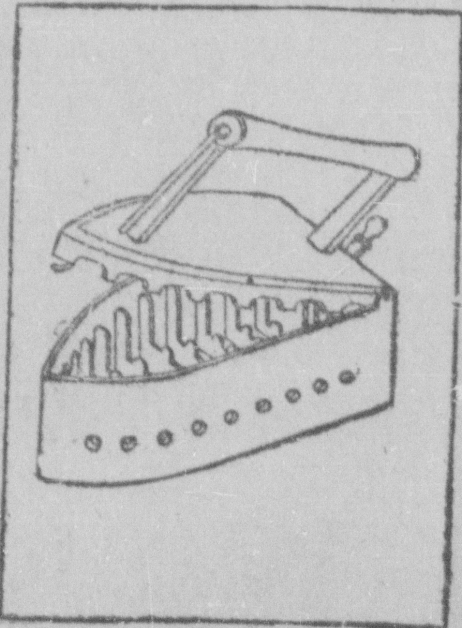

One store in Washington, D. C., has already spoken for 100 of the machines as soon as they are on the market.

Rev. Campbell's real object in going back to his old home in Washington, D. C., was to complete his drawings and to take up the question of the manufacture.

SELF-HEATING IRON.

Charcoal in Body of Utensil Keeps it Always at Same Heat.

From across the seas comes an unusually useful invention in the form of a self-heating iron, evolved by a German brain. It will be understood at once that this iron does its work in a neat and orderly manner. The top of the iron is hinged to form a lid and across the bottom of the interior is a grating on which charcoal is to be burned. This method of heating insures the utensil being always at a temperature that fits it for use and there is no danger of dirt of any sort accumulating on the bottom. In addition to doing its work clean, the

Will not Soil Clothes.

New iron has the advantage of being without offensive odor, the small amount of charcoal required to heat it causing no unpleasant smell. The time saved in having an implement with which ironing can be done steadily, without waiting to heat an iron or exchange it for another on the stove, can readily be appreciated. Then, too, the risk of soiling the clothes is eliminated.

Doctor—Why, how is this, my dear sir? You sent me a note stating that you had been attacked with mumps, and I find you suffering from rheumatism.

Patient—That's all right, doctor. There wasn't a soul in the house that knew how to spell rheumatism.

THE "ONYX" SALE

Of Hosiery For Men and Women

Will Be Held Next Saturday, Monday, Tuesday

Detailed Announcement Will Be In Tomorrow Nights Herald

Ohio Southern Part Of the D. T. & I. Sells In Springfield Today

Section of the Road From Lima to Wellston Purchased By the Central Trust Company, of New York, for \$1,550,000, and Remainder of the System Will Not Sell Before June 24.

Only one division of the Detroit, Toledo and Ironton railroad was sold Thursday noon when the many times postponed sale came up in Springfield, and that portion consists of over 150 miles between Wellston and Lima, and known as the old Ohio Southern division of the system.

That part of the road between Wellston and Ironton and also between Lima and northern terminus of the road near Detroit, was not disposed of, but the two sections will again come up for sale on June 24.

The old Ohio Southern division between Wellston and Lima, was purchased by Henry J. Schumacher and David J. Murray, representing the first mortgage holders. The Central Trust Company of New York City, and the price paid for the division was \$1,550,000.

Just what the future of the system will now be is a problem, as the sale has cleared up the proposition in some respects, and made it more complex in others. What the ultimate outcome will be is a problem that very few, if any can solve with any degree of accuracy.

Whether the road will ever become one system again is a hard question to answer, owing to the shrewd manner in which affairs are manipulated by those behind the deal.

It was generally believed that the N. & W. would purchase the southern division of the road, and that the Pennsylvania would purchase the Northern division.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; the cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.
Sold by Druggists, etc.
Take Hall's Family Pills for constipation.

DISPATCH BOOKLOVERS' CONTEST

Time extended one month on account of the flood. Pictures, catalogues and binders may be secured at Rodecker's News Stand.

Buy a Diamond Joe Cigar.

Luck Followed Egg Shipment

Mr. Henry Brownell is in receipt of a picture from Columbus, showing a car load of eggs and poultry on the Pennsylvania lines, resting high and dry on the viaduct over Rogers avenue, while on either side of the viaduct the track was carried away and the remainder of the train evidently went with it, leaving the one car which had been shipped by the Brownell Packing House, the only one safe out of an entire train.

The car was eventually moved with no serious loss, even though it did contain from \$3000 to \$4000 worth of eggs and poultry.

Fertilizer for lawns, trees, flowers, vegetables, etc., in small bags.
FLORENCE S. USTICK.
In stock at C. F. Bonham's.

Mrs. Austin's Bag Pancake, delicious light cakes for breakfast, all grocers.

New Holland Buys Engine

New Holland has purchased additional fire fighting equipment in the shape of a chemical engine with two 35 gallon tanks. The equipment will arrive for trial within the next thirty days, and if satisfactory will be retained.

The equipment will cost only \$300, but will greatly assist in the handling of fires in that town.

Fresh goods at advertisers.

THE BEST UNBREAKABLE HARD RUBBER COMBS

Every comb comfort is to be found in our unbreakable hard rubber combs. They withstand the ordinary wear and tear because they are constructed of the right material and built along the proper lines. Smooth and strong teeth.—Good solid backs.—Double thick teeth at each end insure greater protection. Oval finish on each separate tooth, thus tearing and snarling of the hair is prevented. Well made durable combs of extreme lightness. You will be agreeably surprised at the price and absolutely satisfied with your purchase. Fine, coarse and medium combs.

Chi-Namel Demonstration

AT THE CHI-NAMEL STORE
Monday--Tuesday, April 21-22

We have the sales agency for the line of All-Purpose Varnish, which is so far ahead of any varnish that has ever been sold in this community, that we particularly desire an early opportunity to show its good points to some member of every household in our business district.

What we want you to know about this wonderful Varnish is something that cannot be told. But we can show you in a very few minutes that you get more for your money every time by using CHI-NAMEL Varnish for floors, woodwork, furniture, or anything about the house on which varnish is used.

This Varnish is furnished in the natural color, and also in a full variety of colors. It can be hammered and boiled without showing any signs of abuse. Any amateur can apply it to large surfaces and get just as smooth a finish as a professional finisher—no laps, no brush marks, no blotches to make a patchy appearance.

You will thank us for this invitation after you have come to know all about it.

Other features we want to show you are the CHI-NAMEL READY-TO-USE GRAINING PROCESS, by which you can cover all blemishes in your old floors and make them any color you wish, and also produce the grain of oak or other woods.

Old carpets can be made into rugs and a new hardwood border will take the place of the ugly flooring at a cost of but 2c per square foot.

We will gladly explain all these features at our store if you give us the opportunity.

LOST AND FOUND.

FOUND — Handkerchief, with child's ring and small change tied in corner. Owner identify and pay for ad at this office. 91 2t

New London Harbor Bill Signed. Hartford, Conn.—Governor Baldwin signed the bill providing for a State bond issue of \$1,000,000 for the development of New London Harbor as an ocean terminal.

Chili Orders A'sop Award Paid. Santiago, Chili.—In accordance with King George's award, the Chilean Government ordered the payment of \$235,000 to the representatives of the A'sop claimants.

Their Big Snake Chokes. Bangor, Pa.—Three boys, Walter Deshler, 19; Gus Ribble, 16, and Franklin Speer, 12, the latter a son of Lewis F. Speer, in charge of the Corporation Bureau, United States Treasury Department, Washington, D. C., captured the largest blacksnake, of the season in these parts near Pahaquarry. As they were taking the monster alive to camp with a string tied around back of its head, the snake wriggled itself into several knots and choked itself to death. The reptile's skin measured six feet seven inches, minus the head.

Jack Sportleigh certainly dressed a kill. "That's an awfully foolish expression." "Oh, I don't know—it keeps him lead broke."

Carbor County's Big Trout. Mauch Chunk, Pa.—George Dreibach, of Weissport, caught a trout in Pine Run, a small stream six miles from here, which weighed 3½ pounds, dressed, and was 22 inches in length. This is the largest trout caught in this section.

The Retort Courteous. The fresh-complexioned, merry-eyed maid of the farm was showing the town visitor over the pretty orchard.

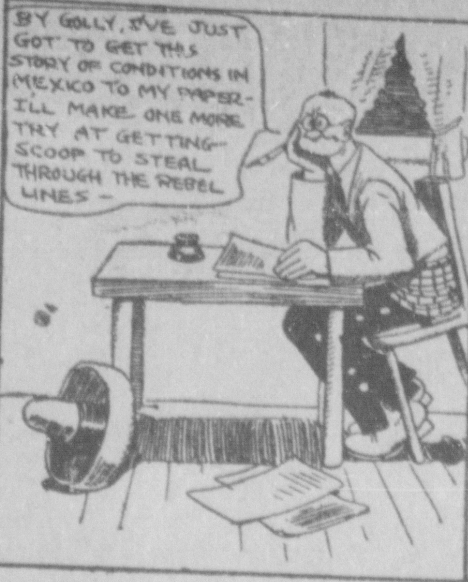

"This tree, now," he said, stopping before a fine specimen, "seems to be fairly loaded with apples."

"Yes, sir," assented the maid. "This is a good year for apples."

"I am glad to hear that," said the visitor. "And are all your trees as full of apples as this one?"

"Oh, no, sir!" explained the girl. "Only the apple trees!"

MCCARTY LOOKED GOOD

White Hope Puts It Over Jim Flynn In Six-Round Bout.

Philadelphia, April 17.—Luther McCarty, the "white hope," put it all over Jim Flynn in their six-round boxing contest here. Flynn did somewhat better in the fourth and fifth rounds than in the first three, but there was never an instant when the smiling giant lost his head, and while the fireman did some good work, Mac was his master. McCarty forced matters in the sixth round and had Flynn hanging on. At the finish of the bout McCarty was unmarked, but Flynn, while he looked bad, could have gone a longer distance.

LITERAL.

Household

FILLING FOR CAKES.

A List of Dessert Flavorings of Unusual Excellence.

Walnut.—One cupful sour or sweet cream, one cupful sugar, one cupful chopped nuts. Boil ten minutes, beat thick. Flavor with vanilla.

Maple.—One-half cupful maple syrup or sugar, one-half cupful cream. Cook until lumps; pour slowly into one beaten egg, white.

Almond Cream.—One-half pint cream; beat, thicken with one teaspoonful cornstarch wet with cold cream, two dessertspoonfuls sugar, three beaten eggs. Cool, add one-half pound chopped blanched almonds, ice, decorate with almond halves.

Prune Whip.—One cupful chopped stewed prunes, beaten whites four eggs, one tablespoonful sugar; spread on layers, heap top one with whipped cream.

Filbert.—Whip one cupful cream, two tablespoonfuls sugar, four of grated chocolate, four of chopped filberts. Put between cakes containing filberts.

Marshmallow.—Spread marshmallows on pan in oven an instant to soften, place on layers, cover with boiled icing.

Pineapple.—Use boiled icing and sprinkle with sweetened grated pineapple.

Coffee.—One-half cupful strong coffee, two cupfuls sugar. Boil until lumps, beat creamy.

Peach.—One cupful peach pulp, one-half cupful sugar, one cupful cream, whipped. Beat, spread on layers, sprinkle with chopped pistachio nuts. Soft pink icing. Use fresh.

Quick Filling.—Confectioners' sugar, cream or milk, chopped fruits, nuts, etc. Apple jelly with chopped figs.

PENNSYLVANIA'S WEALTH.

Its Banking Assets Go Far Above the Two Billion Mark.

Harrisburg, Pa.—The fact that the aggregate assets of national and State banks, trust companies and other institutions of the kind in Pennsylvania total the enormous sum of \$2,446,766,547 was shown by a compilation for the first time of the condition of the various saving institutions in response to calls made by the Controller of the Currency. Of this total the national banks contain \$1,347,502,350 and the State institutions \$1,099,258,197. The total amount of loans and discounts is \$1,152,746,656, of which the national concerns hold \$630,642,331 and the State banks \$482,225,925. The bonds owned by both classes of institutions reach \$698,558,296, divided as follows: National banks, \$284,054,496; State banks, \$414,503,794. The combined capital of the savings organization totals \$234,816,297. An aggregate of more than a billion dollars is shown in the total deposits, \$1,483,234,685 in actual figures, and of this amount there is held in the State bank, \$755,522,210, and the remainder of \$727,712,475 in the Government institutions.

Amoy Bulb Supply Captured. Amoy, China.—The Pacific Mail steamer Mongolia, carried away from this port 230 tons of Amoy narcissus bulbs for the American markets. This shipment was notable as the first of its kind. The bulbs are produced in a small area on the West River, and the annual supply is limited. There has been sharp competition lately among foreign bulb dealers to obtain the local supply.

The Retort Courteous. The fresh-complexioned, merry-eyed maid of the farm was showing the town visitor over the pretty orchard.

"This tree, now," he said, stopping before a fine specimen, "seems to be fairly loaded with apples."

"Yes, sir," assented the maid. "This is a good year for apples."

"I am glad to hear that," said the visitor. "And are all your trees as full of apples as this one?"

"Oh, no, sir!" explained the girl. "Only the apple trees!"

Carbor County's Big Trout. Mauch Chunk, Pa.—George Dreibach, of Weissport, caught a trout in Pine Run, a small stream six miles from here, which weighed 3½ pounds, dressed, and was 22 inches in length. This is the largest trout caught in this section.

Various Uses for Lemons.

Lemon juice will cure a sore throat if the throat is gargled with it.

A cloth soaked in lemon juice and bound about a cut or wound will stop the bleeding.

Lemon juice rubbed on the hands while washing them will remove stains made by vegetables or fruit.

Lemon juice and salt spread on a garment will remove iron rust.

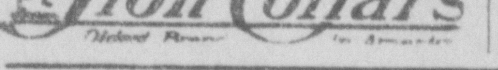

Top Icicle Hits Man in Mine.

Pottsville, Pa.—A giant icicle fell several hundred feet down a borehole at the Wadesville Colliery fatally injuring Michael Tonwain at work.

First Step Looking To Conserving The Land Is Taken

TO PREVENT FLOODS

Encouraged by Low Taxes, Farmers May Plant Many Trees.

Columbus, O., April 17.—First step towards actual conservation of natural resources by the state was taken by the house in passing the Beyer bills. They provide that the trustees of Ohio State university are to buy tax-forfeited lands and plant them to trees, raising nursery stock at Wooster; also reducing to the nominal tax assessment of \$1 an acre on one-eighth or less of any farmer's land if the one-eighth is planted to trees, 170 to the acre. These private forests must be under state supervision. The bills are held to supply a means of protection from floods.

SMITH TRIAL ON

Springfield Physician Charged With Murder of First Wife.

Springfield, O., April 17.—A jury was secured last night to try Dr. Arthur B. Smith, prominent physician, on a charge of first degree murder, for the alleged poisoning of his first wife, Florence Cavleer Smith. Today the attorneys for the state and defense made their opening statements.

Dr. Smith appeared pale and wan from his long imprisonment. His only companion in court is his aged uncle, Dr. George Scholl of Baltimore. Neither Mrs. Mabel Smith, his second wife, nor his aged mother, have appeared in court.

Free Raw Wool Men Succeed In Battle

(Continued from Page One.)

on an amendment offered by Representative Dies of Texas, proposing a rate of 15 per cent ad valorem on raw wool.

The fight on the free wool provision was started by Representative Dies, who had the support of some of his colleagues from Texas, members from Ohio and other wool-producing states. Having in mind President Wilson's conference with Chairman Underwood on the tariff, Mr. Dies reminded the caucus that there were three co-ordinate branches of the government, each supposedly independent and each entrusted with certain duties to perform. The house, he said, was authorized to originate tariff bills. He strongly intimated that in this instance the house leaders had shared their constitutional responsibilities with the executive.

Representative Alexander of Missouri, who comes from an agricultural district, spoke more to the point. He declared that it was common gossip in the capital that Democrats who withheld support from the tariff bill would be punished by the administration.

Representative Underwood made a speech in which he defended the bill, and he urged all members of the party to stand by the measure, as it had been approved by the administration. He said that the bill represented a fair compromise; that it was in the main equitable to all interests concerned, and that in his opinion it would be approved by the country.

OVER \$25,000,000 IN PARCEL POST STAMPS.

Washington, April 17.—More than 5,000,000 parcel post stamps, the face value of which exceeds \$25,000,000, have been supplied to postoffices of the country since the establishment of the system. Parcel post business is increasing so rapidly that it has been found necessary to double the daily output of stamps. The largest single order filled this month was \$360,000 worth for New York city.

Legislator Expelled.

Concord, N. H., April 17.—Clifford L. Snow, members of the house of representatives from Manchester, was expelled from that body, the vote being 118 against expulsion and 176 in favor. The action was taken on recommendation of a special committee of investigation, which found Snow guilty of offering to sell his vote on several specific occasions.

Police Charge Crowd.

Paterson, N. J., April 17.—A mob of between 5,000 and 6,000 silk strikers and sympathizers made an attack on a police patrol wagon. A shower of stones which struck the curtains of the patrol was followed by a revolver shot. Then the policemen, guns in hand, charged the crowd, which fled after firing another volley of stones. Policeman Henry O'Brien was struck in the head and badly cut.

Public Service Commission Legislated Out of Job

GOES THROUGH HOUSE

Mills Utility Bill Provides For Physical Valuation.

Columbus, O., April 17.—The Mills public utilities bill, that legislates the three public service commissioners out of office and paves the way for new members, was passed by the house. Mr. Mills declared the bill accomplished four things. It codified "badly jumbled sections of the old railway law," provided for physical valuation of utilities, provided the means for a comparison of the cost of privately-owned and publicly-owned utilities, and simplified court procedure by providing that an order of the commission can be carried direct to the supreme court for review.

OHIO HAPPENINGS

Honest Laborers Wanted.

Dayton, O., April 17.—According to the plans of the citizens' relief committee, it is the intention to import 5,000 laborers primarily in the work of cleaning the streets and rehabilitation, but with the ultimate purpose of making as many of the desirables as possible citizens of Dayton. About 1,000 laborers have been imported thus far. Out of a gang imported from Chicago it has been discovered that a large number are professional crooks.

Workmen Crushed to Death.

Coshocton, O., April 17.—Stumbling over a pile of lumber in his effort to escape and falling to the ground, Daniel Smith, 25, a Whipple, O., bridge carpenter, was caught under a carload of heavy bridge timber and crushed to death. His head was mashed and every bone in his body broken. The timbers slid from a flat-car while Smith was preparing to unload them. Johnson McCoy, working with Smith, suffered a broken leg.

Coshocton Buys Own Bonds.

Coshocton, O., April 17.—The sinking fund commission of the city waterworks department, recently created, purchased the \$12,000 city bonds issued for paving Eighth and Walnut streets. Their offer was par with accrued interest. The bonds bear 4½ per cent interest.

Garber Backs Saltzgeber.

Washington, April 17.—Harvey C. Garber has recommended Former State Senator Saltzgeber of Van Wert for the pension commissionership. Dr. Gentch of New Philadelphia is the candidate of Senator Fomerene and the Democratic members of the house from Ohio.

Victim of Thugs.

Massillon, O., April 17.—With his hip broken, his body a mass of bruises and money missing from his pockets, Elmer Smart, 30, was found under a railroad trestle, where it is believed he was thrown by thugs.

Forest Fires Raging.

Deadwood, S. D., April 17.—The forest fire raging in Custer county is said to be the worst in the history of the Black Hills. The fire is 20 miles long and one mile wide. Two troops of cavalry from Fort Meade have gone to the scene. The town of Buffalo Gap is said to be in danger.

International Harvester Machine company is dismantling its plant at Auburn, N. Y. Will ship machinery to Europe.

Suspected of complicity in the attempt to assassinate King Alfonso, 32 members of anarchistic organizations were arrested in Barcelona, Spain.

Mrs. Della Stroud, who killed her husband in the presence of Edward Beeler, an admirer, at her home in Vivian, La., was taken with Beeler to Shreveport to avert a double lynching.

Will in Twenty-one Words.

Camden, N. J.—The will of William J. Thompson, long a political leader in South Jersey, who was known as the Duke of Gloucester, a title earned when he ran the old Gloucester race-track and who died in Europe, was filed for probate here.

"I will, bequeath and devise all my real and personal property to my wife Sarah Thompson and appoint her sole executrix."

It is the shortest will ever filed here. It was executed July 16, 1890, when Thompson was rated as being several times a millionaire. He was in bankruptcy at the time of his death.

Slain to End a Feud.

McConnellsburg, Pa.—William Locard, who lives in the mountains of Fulton county, 12 miles from here, shot and killed J. Kell Foster near New Granada. The Locard and Foster families have long carried on a feud, and both men are said to have threatened each other, and as a result to have been heavily armed.

BROTHERS' RARE REUNION

Shipwrecked. Fought on Opposing Sides in War.

Fairmount, N. J.—Charles and Theodore Glazer met at the latter's home here for the first time in 46 years and what they had to tell each other and a third brother was enough to keep them going a week, only they had to sleep and eat a little. The brothers were among the few persons rescued from the ship New Bra, which in 1854 foundered on the New Jersey coast at a point near where Asbury Park visitors now enjoy sunbathing, and 300 passengers were drowned.

It was their fate, too, to fight on opposing sides in the war of the States. They had migrated from Germany. Theodore had gone to Virginia to live and he imbibed the spirit of the Confederacy, while Charles, settling down to farm life in Jersey, was among the volunteers who went out on Lincoln's call. Theodore went to the front as a member of Branch's Petersburg Battery, an integral part of the Army of Northern Virginia, which was commanded by General Robert E. Lee. It took part in a majority of the important engagements, including Antietam and Gettysburg.

With the same spirit of patriotism, Charles enlisted with the First New Jersey Cavalry, which was a part of the Army of the Potomac. The cavalry, by a coincidence, participated in all of the struggles in which Branch's Battery was engaged. It was not long after the start of the rebellion that the brothers, by accident, learned they were fighting against each other. Then after each engagement they made it a part of their duty to search for each other in the field of the dead and wounded.

A Mean Retort.

"Yes," said the eminent physician, "we are doing much to prolong human life."

"I am glad to hear it," answered Mr. Sirius Barker. "By prolonging life you give a man more time and opportunity to get together the amount of your bill."
